

Roadrunners' Race Results

David Dibben

Plenty to get your teeth into this month, what with the XC season now in full swing and the Reading Half Marathon getting a Covid-era autumn date.

The Reading HM is always one of the RR results department's toughest assignments of the year, not least because a big proportion of our members didn't get any club affiliation in the published data.

Other cans of worms opened up after that event include a picture of a lapsed former member racing round the town in a green vest and another member receiving a result from the organisers even though he didn't run!

Apologies if your result or PB is missing. Perhaps we can play catch-up next month.
